EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

First created on: 2015-02-17 Updated on: 2015-04-08
Next inspection on: 2015-12-31 Printed on: 2015-04-08

Note: The product is an object defined as an article in the Regulation (EC) No. 1907/2006 (REACH) Art. 3 Par. 3, not classified as dangerous or not containing substances classified as dangerous, so there is no obligation to issue a safety data sheet according to the Regulation (EC) No. 1907/2006 Art. 31 (Requirements for safety data sheets). The following information complies with the obligation according to Art. 32 (for substances on their own or in preparations for which a safety data sheet is not required), and was issued following the structure by Annex II.

1. Identification of the substance / the preparation / the product and identification of the company

1.1 Identification of the substance / the preparation / the product

Trade Name: SiLibeads – Ceramic beads Type ZY-E

1.2 Application of the substance / the preparation / the product

To be used as: Grinding media in pearl mills. For example milling of colour

pigments, paints, thermal paper coatings and agro chemicals.

Version: V3/2015

1.3 Company identification

Manufacturer / Supplier: Sigmund Lindner GmbH

Oberwarmensteinacher Str. 38

95485 Warmensteinach / GERMANY Phone: (+49) 09277-9940 Fax: (+49) 09277-99499

Web: <u>www.sili.eu</u>

E-Mail: <u>reach@sigmund-lindner.com</u>

Safety data provided by: Mr. Michael Dressler (Quality and Innovation)

Mr. Reinhold Schneider (Quality Assurance)

1.4 Emergency Call

Emergency information: Phone: (+49) 09277-9940

We can be reached during office hours (Central European Time):

Monday - Thursday: 7.00 AM - 4.30 PM Friday. 7.00 AM - 1.00 PM

2. Possible dangers

Classification: No requirement to label according to the Preparation

Guideline, respectively European Directives 67/548/EEC (Dangerous substances Directive) or 1999/45/EC (Dangerous

preparations Directive).

Additional danger advice: In case of inappropriate handling different kinds of injuries are

possible - keep away from children!

Risk of slipping due to spillage of product!

It is not necessary that the product has to be labelled according to the European Directives.

Data file: MSDS en SiLibeads Type ZY-E Page 1 of 8

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

First created on: 2015-02-17 Updated on: 2015-04-08
Next inspection on: 2015-12-31 Printed on: 2015-04-08

Version: V3/2015

3. Composition / detailed information on the ingredients

3.1 Chemical characteristics

Description: Ceramic Beads made of Zirconium Oxide, Yttrium stabilized

3.2 Ingredients

Name	EC/GHS Classification	Amount	CAS N°	EC N°	REACH Registry	TSCA Registry
Main components						
Zirconium dioxide ZrO ₂	not classified		1314-23-4	215-227-2		TSCA 8(b) Inventory:
Hafnium dioxide HfO ₂	not classified	94.35 %	12055-23-1	235-013-2		Zirconium oxide
Yttrium oxide Y ₂ O ₃	Xi;R36/37/38 Skin.lrrit.2;H319 Eye.lrrit.2;H315 STOT.SE.3;H335	5.35 %	1314-36-9	215-233-5		TSCA 8(b) Inventory: Yttrium oxide, powder
others		0.30 %				

Note: The heavy metal content of SiLibeads Type ZY-E remains within the permitted limits of European standard EN 71-3 (Safety of toys) and European Directive 2011/65/EC - RoHS (Restriction of use of certain hazardous substances in electrical and electronic equipment).

4. First-aid measures

General Advice: Remove soiled clothes. In case of persisted discomfort

contact a physician.

After Inhalation: Provide fresh air.

After Skin Contact: Clean skin with water and soap.

After Eye Contact: Remove particle carefully from the affected eye.

If necessary, remove contact lenses.

Rinse eyes thoroughly with plenty of water.

Consult a physician if needed.

After Swallowing: Consult a physician after swallowing.

Advice for the physician: Irritations of skin, mucosa, eyes and the respiratory system

by dust are possible. In most cases decontamination and

symptomatic treatments are sufficient.

Data file: MSDS en SiLibeads Type ZY-E

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)

Next inspection on: 2015-12-31 Printed on: 2015-04-08

5. Fire fighting actions

Suitable extinguishing

agents:

The product itself is neither combustible nor explosive. Extinguishing agents have to be coordinated with the

Version: V3/2015

surrounding fire.

For safety reason unsuitable

extinguishing agents:

Unknown.

Special dangers: No information available.

Special protective

Protective equipment has to be coordinated with the

equipment: surrounding fire

6. Measures by accidental release

Cleaning procedures and

absorption:

Risk of slipping, if the product is spilled on the floor. Isolate the area and sweep the floor by vacuum in order to collect the

beads to avoid slipping on the beads.

Environmental measures: No special actions necessary.

Disposal look at chapter 13.

7. Handling and storage

7.1 Handling

Safety advice: High risk of slipping due to spillage of product. Avoid dust.

Technical protective

measures:

No data available. The product itself is neither combustible nor

explosive.

7.2 Storage

Requirements for storage

No special storage is necessary. Store in tightly closed

in rooms and containers: (original) containers.

Joint storage: No specially known incompatible materials.

Storage class: Storage class 13 (non-flammable solid materials).

8. Exposure limits and personal protection

8.1 **Exposure limits**

Mechanical dry processing of the product can generate a risk of dust: The local limits of dust concentration at the work have to be considered.

Data file: MSDS en SiLibeads Type ZY-E Page 3 of 8

EU Safety Data Sheet according to Attachment II EC Reg. 1907/2006 (REACH)
First created on: 2015-02-17 Updated on: 2015-04-08

First created on: 2015-02-17 Updated on: 2015-04-08

Next inspection on: 2015-12-31 Printed on: 2015-04-08

Parameter	CAS-Number	EINECS	Limit values dust		
General limit value			10 mg/m³ E 3 mg/m³ A	Limit at work (AGW) according to the TRGS 900 Regulation	
Zirconium and compounds insoluble in water	7440-67-7	231-176-9	1 mg/m ³ E	Limit at work (AGW) of insoluble zirconium compounds according to the TRGS 900 Regulation	
			E = inhalable fraction / A = respirable fraction		

Note: The natural radioactivity of SiLibeads Type ZY-E remains within the permitted limits of the Directive 96/29/EURATOM (Safety standard for the protection of the health of workers and the general public against the danger arising from ionizing radiation).

8.2.1 Exposure limits and monitoring in the workplace

General work protection Do not inhale dust. Avoid contact with eyes and skin.

In addition it is recommend to wear hand-, skin- and

Version: V3/2015

mouth protections.

Hygiene measure: Do not eat, drink, smoke or snuff during work.

Wash hands prior to breaks and after finishing work.

Change soiled clothes.

Technological protection measure: An on-site extraction system is required in the event of

gathered dust and thermal pollution from the product.

Respiratory protection:

Mask filter is required when mechanical processing is done with dust exposure, e.g. a P1 dust mask that conforms to EN 143 or a half mask with particle filter

FFP1 or PP2 conforms to EN 141

or

an N-95 NIOSH-certified dust mask or better. Voluntary

respirator use is permitted by OSHA in 29 CFR

1910.134(c)(2)(i) and Appendix D.

Hand protection: Suitable protective gloves are recommended, e.g.

Material: Mat. thickness Penetration time:
Butyl rubber min. 0.4 mm min. 30 min. acc. to

EN 374

Next inspection on: 2015-12-31 Printed on: 2015-04-08

Side-shielded safety glasses or goggles that conform to EN 166

Version: V3/2015

or

29 CFR 1910.133(a)(2) are required when carrying out mechanical processing with exposure to dust. Safety glasses or goggles must meet the requirements of ANSI Z87.1–2003, "American National Standard Practice for Occupational and Educational Eye and

Face Protection."

Body protection: Generally, normal working clothes are sufficient.

8.2.2 Restrictions and monitoring of the environmental exposure

There are no known properties of the product,, that pose dangers to the environment. General operational measures are sufficient to protect the environment.

9. Physical and chemical properties

Physical condition: solid

Shape: round (beads)
Odor: odorless
Color: white

9.2 Important details regarding health- / environmental protection as well as safety

pH value: Non-applicable

Softening point (temperature): between 2100 - 2500 °C

Flash point:

Self-ignition point (Solid/Gas):

Blaze properties:

Risk of explosion:

Vapor pressure:

Non-applicable
Non-applicable
Non-applicable

Specific weight: 6.05 kg/l

Bulk density: between 3.71 - 3.73 kg/l Water solubility: Insoluble in water Partition coefficient n-Octanol/ Non-applicable

water:

Viscosity: Non-applicable Vapor density: Non-applicable Evaporation speed: Non-applicable

9.3 Additional details

There are no further details required regarding safety-relevant parameters.

Version: V3/2015

10. Stability and reactivity

In case of appropriate handling and storage no dangerous reactions will occur.

10.1 Conditions to be avoided

Unknown.

10.2 <u>Dangerous decomposition products</u>

Unknown.

11. Toxicological data

There is no toxicological data available.

Irritation of skin, mucosa, eyes and respiratory system are possible by dust.

12. Environmental details

Ecological respectively ecotoxicological data is not available.

13. Disposal information

No waste is produced from the product, that would require special supervision according to EU-directive 2008/98/EC

or

under the Resource Conservation and Recovery Act (RCRA).

Please consult national laws and local regulations in force for disposal or landfill.

Depending on the type of application, products after use may contain other chemicals on their surface. For specific application check rules on a case by case basis.

13.1 Uncleaned Packaging

Recommendation: Packaging can be used again if not contaminated.

Cleaning agent: Water.

14. Transport details

Non-hazardous materials in terms of ADR/GGVS, RID/GGVE, ICAO/IATA, IMDG and USDOT.

15. Legal regulations

15.1 EU Regulations

Compliance according to other legal regulations:

SiLibeads Type ZY-E comply with the requirements of the European Regulation 1907/2006/EC on the registration, evaluation, authorisation and restriction of chemical substances (REACH) and the Regulation 1272/2008/EC on the classification, labelling and packaging of chemical substances (CLP).

Version: V3/2015

The natural radioactivity of SiLibeads Type ZY-E remains within the permitted limits of the Directive 96/29/EURATOM (Safety standard for the protection of the health of workers and the general public against the danger arising from ionizing radiation).

15.2 National Regulations (UK)

Classification and labelling:

The product is not due to labelling according to UK regulations.

Other UK regulations and guidances:

- Health and Safety at Work Act 1974.
- The Management of Health and Safety at Work regulations 1992.
- L5 Control of substances hazardous to Health. The Control of Substances Hazardous to Health Regulations 2002.
- Approved codes of practice and guidance.
- Guidance Note EH40 Occupational Exposure Limits.

16. Additional information

16.1 Summary of the Risk-/Safety-Phrases (chapters 3.2)

(Classification of not bounded substances in the product)

R36/37/38 Irritation of eyes, respiratory system and skin.

16.2 Recommended Limitations of Use

Ceramic Beads are not a toy and must therefore be stored away from children. A resale as toy requires the EC conformity evaluation and the distributor's compliance with the legal valid regulations. We expressly point out, that a conformity evaluation in this sense has not been carried out by Sigmund Lindner GmbH.
